## Nature Hunt

Name:

Today's Weather

Leaves

Trees

Animals

Flowers

Birds

# Nature Hunt Directions

1. Print out paper
2. Fold the paper in half horizontally, then half vertically.
3. Then, fold it in half one more time.
4. Students can use the small nature journal as they walk outside. Here they can write or draw what they observe.

## Tip:

Print and fold a test page first. Every printer is different so you may want to adjust or delete dotted lines before printing so folding is more seamless.
